

Product Safety, Usage, & Liability Disclaimer

Kewl Kandylz

By purchasing and using products from **Kewl Kandylz**, you explicitly acknowledge, understand, and agree to the following safety guidelines, instructions, and liability limitations:

■ 1. Candle Safety & Proper Burn Instructions

All candles manufactured by Kewl Kandylz are embedded with industry-standard safety warning labels on the bottom of each container. You agree to strictly follow these safety precautions:

- **Constant Supervision:** Never leave a burning candle completely unattended.
- **Safe Placement:** Always burn your candle on a flat, level, stable, and heat-resistant surface away from drafty areas, open windows, ceiling fans, vents, or air currents.
- **Flammable Objects:** Keep burning candles far away from children, domestic pets, fabrics, curtains, bedding, books, or any other loose flammable materials.
- **Wick Maintenance:** Always trim the candle wick to exactly 1/4 inch before lighting it every single time to ensure an even burn and prevent dangerous flare-ups or excess soot.
- **Burn Time Limits:** Do not burn any candle for more than 4 consecutive hours at a time. Extinguish the flame immediately if the container becomes excessively hot.
- **Residual Wax:** Discontinue use entirely when only 1/2 inch of wax remains at the bottom of the container to prevent the glass or tin from overheating and cracking.

■ 2. Bath & Body Product Safety & Allergen Disclaimer

Our bath, body, and skincare formulations are handcrafted using eco-friendly ingredients, natural botanical extracts, and cosmetic-grade fragrances.

- **Patch Test Required:** Because individual skin sensitivities vary drastically, you are strongly advised to perform a localized skin patch test on a small, hidden area of skin 24 hours prior to full initial use.
- **Adverse Reactions:** Discontinue use immediately if skin irritation, redness, swelling, burning, itching, or an allergic reaction occurs. Consult a licensed medical practitioner if symptoms persist.
- **External Use Only:** All bath and body products are strictly for external cosmetic application. Do not ingest or consume. Keep out of reach of the eyes, mouth, and mucous membranes.
- **Pre-Existing Conditions:** If you have severe allergies, hypersensitive skin, or are pregnant or nursing, consult your physician before introducing new personal care products into your routine.

■ 3. Absolute Limitation of Liability

- **Manufacturing Nature:** Every item sold by Kewl Kandylz is individually handcrafted by the owner. Minor stylistic variations, settling, or cosmetic imperfections are natural characteristics of small-batch manufacturing and do not constitute a product defect.
- **Assumption of Risk:** By purchasing these products, you voluntarily assume all associated risks. Kewl Kandylz shall not be held legally liable or financially responsible for any direct, indirect, incidental, punitive, or consequential property damage, personal injury, health complications, or fire loss resulting from the misuse, negligent handling, or improper storage of our candles or bath and body products.

Important: This disclaimer is intended to communicate product safety, usage, and liability expectations. It should be reviewed for compliance with applicable consumer-protection, product-safety, and liability laws in the jurisdictions where Kewl Kandylz products are sold.
